A number of presentations were made at both campuses which were well attended by faculty and staff members. The presentations revolved around the functioning and working of ILO, Erasmus Mundus Mobility in Asia (EMMA) and its programs, the Collaboration between CIIT and leading Universities in U.K and the opportunities under HEC funded Foreign Faculty Programmes.

After the presentations, the delegates visited the laboratories of each campus which were not only well equipped with state of the art machinery but also aesthetically refined. The visit to the libraries was well appreciated too because of the pleasant ambiance of the place.

The visit to both campuses ended on a cordial note of cooperation between ILO and the campuses. It added to the experience of the ILO officials and faculty members of various campuses. It also provided an opportunity to the officers to understand and appreciate each other's problems.
